Lucigen Corporation

LUCIGEN CORPORATION

2905 Parmenter St • Middleton, WI

Highlights

We completely remodeled the interior of an existing retail building to be used as Lucigen Corporation's genomic laboratory. Due to the nature of client's work, we were given very unique and particular specifications for the project. We have never shied away from a challenge and enjoyed the opportunity to create a space that would enhance Lucigen's workflow for R&D, manufacturing and shipping, while still meeting increased regulatory requirements.

BJ Galle - Project Manager

"Overcoming the challenges of converting a retail space into a custom lab and an office space that had out of the box finishes made this a very enjoyable project."
